

Corrugated Rubber Matting

Specifications

NATURAL RUBBER

RECLAIMED RUBBER

RECYCLED RUBBER

SYNTHETIC RUBBER

March 2010

Description: Available in 4 surface textures, our Corrugated products offer excellent traction and more comfort via their grooves and ridges. The surface is patterned after classic industrial matting and is used where added footing and friction is required.

Width: 36 inch or 48 inch

Length: 50ft rolls, Custom lengths up to 50 continuous feet are available upon request.

Thickness: 3mm or 0.12 inches (just under 1/8 inch)

Weight: 0.9 lbs per square foot

Hardness: 60 Shore A Nominal

Compression: 36% @ 50 PSI

Tensile Strength: 600 PSI

Available Colors: Black

Applications: Anti-Slip Protection, Buses, Catered Events, Commercial Vehicles, Construction Corridors, Entryways, Golf Courses, Hotels, Indoor/Outdoor Aisle-ways, Industrial Shelves, Movie Sets, Office Buildings, Office Entryways, Party Rental Companies, Scraper Runners, Shelf Liners, Skating Rink Flooring, Special Event Ground Covering, Spike Proofs Applications, Storeroom Flooring, Toolbox Liners, Vibrations Controls, Warehouse Walkways, Wet Areas.

Surface Design: Our Ribbed Corrugated Rubber offers added traction with added and finer grooves and more protrusions, ribs and ridges. The surface pattern (which combines the Fine Rib and the Wide Rib) is more prone to scraping action and offers added grip for applications with heavy foot traffic. The extra ribbed corrugations offer more dirt and moisture trapping qualities.

Permanent Installations: The Rib Corrugated, being a rolled rubber flooring, can be permanently installed with the Chemrex® CX-941, a polyurethane based adhesive.

Temporary Installations: For transient events (e.g. catered parties), this runner product can be held in place with Orcon DS-PS, a double sided carpet tape. The DS-PS, which is applied to the edges and entryways, is an excellent and assertive means to hold the runner down.

Sub-Surface: The textured fabric finish on the subsurface of the rubber matting adds extra grip in temporary uses where adhesive or tape is not being used.

Modular Flooring: The ribbed rubber runner is lightweight and is used in functions that require ease of mobility of the roll. The runner is light enough were it can be packed and stored away for later use.

Custom Cuts: This runner is offered in 36 inch and 48 inch widths, and it can be purchased in any length, in half-foot increments up to 50 continuous feet in either dimension.

Cleaning: The resilient rubber surface resists common liquids and any common commercial or household-cleaning agents can clean the runner. The runner can also be hosed or mopped in outdoor applications.

Availability: This rubber runner is always in stock, and will generally ship the same day (allow 24-48 hours for custom cut lengths).

Full Rolls	1-4 rolls	5-19 rolls	20-49 rolls	50+ rolls	In stock
3mm x 36" x 50ft	\$252.00	\$233.10	\$220.50	\$201.60	Yes
3mm x 48" x 50ft	\$337.00	\$311.73	\$294.88	\$269.60	Yes
Prices above are per roll.					
Custom cut lengths	1-49 feet	50-249 feet	250-999 feet	1000+ feet
