

Shark Tooth

Specifications

NATURAL
RUBBER

RECLAIMED
RUBBER

RECYCLED
RUBBER

SYNTHETIC
RUBBER

March 2010

Material: 83% Post-Consumer Recycled Rubber Content

Density: 60 LBS/FT³, ASTM D 3676

Size: 4ft x 6ft, 3ft x 4ft, 2ft x 3ft

Ultimate Elongation: 83% Minimum, ASTM D 412

Thickness: 3/4 inch

Flame Spread: 0.485 Min, UL 94 Standard

Color: Black

Critical Radiant Flux: 0.11 watts/sq. cm, ASTM E649-94a

Weight: 4.0lbs/Sqr ft

Thermal Resistance: 3/4" 0.54 R-Value

Surface: Flat on one side, Mesh texture (anti-skid) on the reverse.

Thermal Conductivity: 1.39 K-Value

Origin: Manufactured in the USA

Tear Resistance: 150ppi, ASTM D624

Hardness: 60 Shore A Nominal, ASTM D2240

Compression & Recovery: Immediate 98.1%
After 24 hours 99.2%
After 48 hours 99.4%
After 72 hours 99.7%
After 96 hours 99.7%, ASTM D575

Tensile Strength: Minimum 300 psi

Applications: Anti-Fatigue, Assembly Lines, Balconies, Car Shows, Cardio Decks, Floor Protection, Garages, Golf Course, Heavy Duty Outdoor Application, Heavy Equipment Matting, Home Gyms, Ice Rinks, Industrial Applications, Laundry Rooms, Locker Rooms, Pet Care, Pothole Reduction, Protection, Ski Lodges, Spike Protection, Storage, Warehouses, Weight Rooms.

Unmatched Durability: The Shark Tooth mats can protect floors from damage usually caused by the impact from dropping barbells, industrial equipment, or protect the equipment from an inhospitable concrete floor. The rubber mats have cushioning features that protect parts and sub-floors from dings, scuffs, and other damage. The 3/4 inch thick rubber provides superior wear life compared to thinner, light-duty matting.

Resilience: Anti-Fatigue qualities found naturally in rubber are further enhanced by a space age polymer binder used during manufacturing. Each mat is fabricated from thousands of rubber granules and offers superior underfoot comfort and resilience.

Installation: The Shark Tooth is a mat and is recommended for installation in spots rather than as a flooring product. Permanent installation of this product is not necessary, since the weight of the mat (100 lbs. in a 4ft x 6ft) is usually more than sufficient in keeping the product in place. Therefore, the product remains portable, and may be moved or rearranged whenever necessary.

Indoor / Outdoor: The high content of EPDM, which is a UV stable elastomer in the Shark Tooth, makes the product an indoor and outdoor mat.

Cleaning: This mat can be cleaned using any everyday household cleansers or cleaning implements. Indoor cleaning involves a broom, damp mop, or a vacuum cleaner. Outside, a water hose, leaf blower or broom is sufficient. If desired a mild detergent can be used to sanitize the surface.

Made in the USA: This product is completely produced in the United States. Unlike most other matting, it is 100% domestic in nature.

Recycled Product: Made from recycled tires, which helps reduce stockpiles. Millions of car tires are discarded each year. These tire stockpiles are susceptible to fires that cause tremendous air pollution. Also, used tires accumulate water and become breeding ground for mosquitoes. The Shark Tooth is a Green Product.

Availability: The Shark Tooth is always in stock, and will generally ship same day ordered.

Mat Size	1-9 units	10-24 units	25-99 units	100+ units	In stock
3/4" x 4ft. x 6ft.	\$80.00	\$76.00	\$70.00	\$64.00	Yes
3/4" x 3ft. x 4ft.	\$50.00	\$47.50	\$43.75	\$40.00	Yes
3/4" x 2ft. x 3ft.	\$31.00	\$29.45	\$27.13	\$24.80	Yes

*Prices above are per mat.
