Non-Slip Texture: Our Tuff-n-Lastic rubber flooring mats are designed as a versatile non-slip surface that is ideal for any application. The grip enhancing surface textures of this roll add anti-slip safety to walkways that are otherwise left unprotected. Wet winters and slippery work settings can create unsafe and potentially dangerous environments. Using this very affordable rubber mat can protect property, business owners and employees from hazardous slips and falls. An affordable and durable rubber floor is a cheap insurance policy!

Temporary Installations: For semi-permanent applications this durable rubber flooring roll can be held in place with Orcon DS-PS, a double-sided carpet tape. The DS-PS, which is applied to the edges of the mat as well as entryway surfaces, is an excellent and assertive means to hold the runner down.

Fabric Finish Sub-Surface: Our Tuff-n-Lastic mats are designed with a textured fabric finish on its backside. This enables the mat to grip any sub-floor more effectively while reducing the chance of the mat slipping.

Tough Runner: The aptly named Tuff-n-Lastic is not only designed to last but is also incredibly tough! Made with reclaimed rubber, this product will do well both indoors and outdoors. This is a rubber runner that will surely last seasons!

Custom Cuts: This runner is offered in 48inch widths, and can be purchased in any length in half-foot increments up to 50 continuous feet.

Cleaning: The Tuff-n-Lastic Rubber Matting's resilient surface resists common liquids, making it an excellent watertight surface that'll prevent the growth of mold and mildew. In terms of cleaning, any common commercial or household-cleaning agents can effectively clean the runner. The runner can also be hosed or mopped in outdoor environments.

Availability: We stock Tuff-n-Lastic Rubber Flooring so that we can fill any order within 24 hours. Our goal is to meet your needs fast! We try our best to stock this rubber flooring roll in large quantities, please accept our apologies when this is not the case.
