Description: 100% Rubber backed polypropylene mat is designed for use as an area rug, entryway, or doormat. It is specifically designed to scrape, absorb moisture, and reduce hazards of slipping.

Material: Rubber backing made from natural, reclaimed, and recycled rubbers topped with a Polypropylene carpet filament.

Sizes: 16" x 24" -- 3lbs
18" x 30" -- 4lbs
24" x 36" -- 7lbs
35" x 59" -- 16lbs
47" x 71" -- 46lbs

Weight: Approximately 1.1 lbs per square ft.

Available Colors: Blue, Brown, Charcoal, Tan.

Eco-Friendly: Natural rubber is a vital agricultural commodity. Its production from the rubber tree (*Hevea brasiliensis*) plays a major role in the socio-economic fabric of many developing countries. Over 20 million families are dependent on rubber cultivation for their basic source income. Small growers including many with holdings of 5 acres or less, are dependent upon Hevea for their livelihood.

Purpose: The Wellington Carpet Mat is perfect for any residential or commercial entryways. It is great for areas that experience rain and snow conditions and need entry mats to keep dirt and debris away from the building interiors. This mat is perfect for taking the punishment of heavy foot traffic without fuzzing or piling. Excellent for all weather conditions, the solution-dyed fibers are long wearing and will not fade or discolor in sunlight.

Beveled Rubber Edge: The raised rubber edge helps keep moisture on the surface of the mat. Excess snow and ice will stay on the surface of the mat, since the 100% rubber backing is moisture resistant and any liquids that are gathered on the surface will not make their way down below.

Applications: Apartments, Break Rooms, Corridors, Entryways, Hallways, Homes, Hotels, Hospitals, Outdoor Matting, Lobbies, Office Matting, Restaurants, Shopping Centers, Traction Mat, Walkways, Wet Areas.
