

Bubble-Top Interlock

Specifications

August 2021

Description:

Bubble-Top Interlock is an interlocking mat with superior anti-fatigue qualities. The brightly colored beveled perimeters help visually define the mat thus increasing safety and reducing trip hazards. These mats are extremely durable, comfortable, and eco-friendly. The mat has a bubble, or dome cell, structure that traps air in the subsurface and offers bounce back support which makes it a comfortable surface to stand on. Bubble-Top rubber floor tiles are available in end and center pieces that are 3ft. x 4ft. size and can be assembled in any length! Natural Rubber and Reclaimed Rubber

Material

Thickness:

5/8"-inch

Sizes:

3ft x 4ft Interlocking Center Tile 20lbs.

3ft x 4ft Interlocking End Tile, 20lbs.

Hardness:

55 +/-5 Shore A [ASTM D 2240]

Available Border Colors:

Black, Yellow, Blue, Red, and Brown

Applications:

Aerospace, Anti-Fatigue Mats, Anti-Slip Mat, Assembly Lines, Automotive, Bar Mat, Basements, Bathrooms, Butcher, Car Washes, Cashier Stands, Comfort Mats, Cooking Mat, Cruise Ships, Drainage, Dog Mat, Equipment Floor Mat, Fast Food, Flower Shops, Food Preparation, Garage Mats, Grip Mat, Guard Stands, Ice Skating Rinks, Industrial Runners, Interlocking Flooring, Industrial Mats, Kitchens Mats, Laundry Rooms, Manufacturing, Marine Floor Mats, Padded Floor, Outdoor Mat, Restaurants, Safety Floor, Screen-Printing, Slip Resistant Floors, Soft Rubber Mat, Veterinarian, Warehouses, Washrooms, Waste Management, Workstations Mats, Zoos.

Interlocking:

The 3ft. x 4ft. version of our interlocking rubber tiles can create long runners making it ideal for assembly lines or long retail counters. The 4ft long rubber floor can be interlocked infinitely and finished off with an end piece.

Bubble-Top Surface:

The bubble-top surface in combination with the high coefficient of friction found in Natural Rubber offers extra traction in areas where light moisture may be present. This is ideal rubber matting for any anti-fatigue application that also requires comfort and durability. Bubble-Top will outlast all competing foam and sponge products.

Cleaning:

Since this rubber floor matting offers moderate chemical resistance, it can be cleaned with most common household cleaners. Strong, highly caustic cleaning solutions (e.g. bleach) are not recommended.

Beveled Edges:

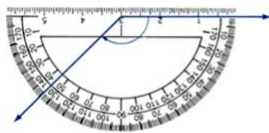

This interlocking mat contains beveled edges along its perimeter making this mat perfect for cart and wheeled equipment access.

Availability:

All sizes and colors of this rubber tile are in stock and ship within 24 hours of placing an order.

California Prop 65:
