

Coin-Grip (Metallic)

Specifications
August 2021

Description:

A Stud-Top PVC floor made designed with durability in mind. This PVC flooring roll is made extra wide, 48 inches, in size in order to minimize seams during installation. Coin-Grip (Metallic) is sold in rolls up to 50 continuous feet. A metallic color is a color that appears to be polished and the visual sensation usually associated with metals is its metallic shine. This product is made with a finished film which does its best to mimic a shiny metallic look.

Material:

PVC

Width:

48"-inch

Length:

50ft rolls – Custom lengths are available upon request

Thickness:

2.5mm or just under 1/8" inch thick

Weight:

0.9 lbs per square foot, approximately 180 lbs. per 50ft roll

Hardness:

75 Durometer

Available Colors:

Silver, Beige

Applications:

Airport Runways, Animal Bedding, Athletic Areas, Auto Shops, Bars, Basement Floors, Bathroom Floors, Boat Floors, Factory Walkways, Elevator Floors, Fitness Floors, Floor Protection, Garage Floors, Gym Equipment Flooring, Flower Shops, Patios, Industrial Machinery, Laundry Areas, Locker Room Floors, Marine Floors, Shop Floors, Spas, Storage Rooms, Trailer Floors, Van Floor Mats, Vapor Barriers.

Excellent Durability:

PVC flooring is a chemically stable material, which shows little change in molecular structure, and also exhibits little change in its mechanical strength over time.

Why Slip-Resistant Flooring?

The widely accepted principle of safety by design, as well as building codes, require that flooring be slip-resistant over its life cycle — not just at the time of installation. The Americans with Disabilities Act (ADA) requires that flooring accessible to disabled persons be slip resistant — not just when the building is constructed, but throughout its lifetime. STFs (Slip, Trip and Falls) are the second most common cause of lost-workday injuries in general industry and can cause back injuries, sprains, strains, contusions, fractures, severe head injuries, paralysis, and even fatalities. STFs are the third most common cause of lost-workday injuries in wholesale and retail trade establishments.

Ease of Installation:

This product can be quickly and effectively installed using a double-side tape. For more permanent applications this flooring roll can be installed with a polyurethane-based adhesive.

Textured Surface:

This product comes with a unique "coin" texture. These circular designs are slightly raised so that they provide the feet with a better amount of traction and stability. This texture design will help keep you and everyone else safe.

Easy to Cut:

The PVC material of this flooring can be cut with the use of a utility knife. For the best cutting results, use your utility knife in conjunction with a straightedge.

Cleaning:

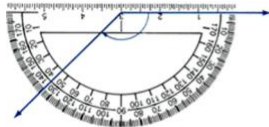

This flooring roll can be cleaned with most common household cleaners and degreasers.

Availability:

Coin-Grip (Metallic) flooring is always in stock and will generally ship the same day.
