

# Corrugated Rubber Matting (Ramp Cleat)

Specifications  
August 2021

<u>Description:</u>	Ramp Cleat rubber flooring offers the ultimate traction through cleat-like protrusions running the width of the roll. This unique rubber runner mat is one of the few products that offer deep studded barriers for additional toehold when going up inclines or across moist surfaces. The angular corrugations also help remove excess soil from feet when used as an entry scraper mat.
<u>Width:</u>	36 inch
<u>Length:</u>	50ft rolls, Custom lengths up to 50 continuous feet are available upon request.
<u>Thickness:</u>	3mm or 0.12 inches (just under 1/8 inch)
<u>Weight:</u>	0.9 lbs per square foot
<u>Hardness:</u>	60 Shore A Nominal
<u>Compression:</u>	36% @ 50 PSI
<u>Tensile Strength:</u>	600 PSI
<u>Available Colors:</u>	Black
<u>Applications:</u>	Access Ramps, Alleys, Boats, Churches, Car Restoration, Cellar Flooring, Deck Floor Mats, Docks, Dog Mats, Duckboards, Entryways, Factory Ramps, Fitness Centers, Garage Floor Mats, Hospital Ramps, Hotels, Horse Trailer Matting, Inclines, Loading Docks, Marine Pathways, Office Buildings, Outdoor Walkways, Outdoor Rubber Surface, Patio Mats, Ramps, School Facilities, Sloped Paths, Superior Anti-Slip Surface, Trailer Rubber Flooring, Van Floor Liner, Walkways, Wet Areas, Wheel Chair Accessibility.
<u>Permanent Installations:</u>	For most high traffic applications, the Ramp Cleat runner must be permanently installed with a polyurethane based adhesive (such as Chemrex® CX-941).
<u>Temporary Installations:</u>	For temporary indoor or outdoor installations the Ramp Cleat rubber floor can be installed with a double sided sealing tape. Installing the tape to the perimeter of the mat effectively secures the product to a hard-subsurface. The non-invasive nature of carpet-tape also allows the flooring to be removed when needed.
<u>Custom Cuts:</u>	The Ramp-Cleat rubber rolls can be purchased in any length up to 50 continuous feet in half-foot increments. From the rubber roll it can be custom die, laser, or water -jet cut to match any dimension or size required. It could also be easily cut using a sharp utility knife on location to meet any dimensional requirement.
<u>Cleaning:</u>	Since this product offers moderate chemical resistance it can be cleaned with most common household cleaners. Strong, highly caustic cleaning solutions (e.g. bleach) are not recommended. For interior applications mopping the product is ideal, but for exterior purposes a water hose or broom would be the preferred cleaning method.
<u>Availability:</u>	These runner mats are always in stock and will generally ship the same day (please allow 24-48 hours for custom cut lengths).
<u>California Prop 65:</u>	 <b>WARNING:</b> Cancer and Reproductive Harm - <a href="http://www.P65Warnings.ca.gov">www.P65Warnings.ca.gov</a> .
