

Corrugated Rubber Matting (Wide Rib)

Specifications
August 2021

<u>Description:</u>	Our Wide Ribbed Corrugated rubber flooring offers the rare combination of excellent traction and good comfort via its wide grooves. The surface is patterned after classic industrial matting often seen in older vehicles. This product is ideal for indoor or outdoor walkways as it can withstand moisture and UV rays well. The Wide Rib corrugations, or ridges, are low profile and can help define pathways and commercial aisles.
<u>Width:</u>	36 inch or 48 inch
<u>Length:</u>	50ft rolls, Custom lengths up to 50 continuous feet are available upon request.
<u>Thickness:</u>	3mm or 0.12 inches (just under 1/8 inch)
<u>Weight:</u>	0.9 lbs per square foot
<u>Hardness:</u>	60 Shore A Nominal
<u>Compression:</u>	36% @ 50 PSI
<u>Tensile Strength:</u>	600 PSI
<u>Available Colors:</u>	Black
<u>Applications:</u>	Anti-Slip Protection, Buses, Catered Events, Commercial Vehicles, Construction Corridors, Deck Flooring, Doggie Mat, Entrance Flooring, Flooring for a Damp Basement, Golf Courses, Hotels, Indoor/Outdoor Aisle ways, Industrial Shelving, Horse Trailer Flooring, Large Outdoor Mats, Modular Garage Flooring, Movie Sets, Office Buildings, Outdoor doormats, Patio Mats, Pet Mats, Office Entryways, Outdoor Flooring, Pathways, Party Rentals, Patio Mat, Scraper Matting, Shelf Liners, Skating Rink Flooring, Special Event Ground Covering, Spike Proof Applications, Storeroom Flooring, Toolbox Liners, Trailer Flooring, Van Floor Mat, Vibrations Control, Warehouse Walkways, Wet Areas.
<u>Permanent Installations:</u>	In commercial or industrial areas where foot traffic is heavy, the Wide Rib Corrugated matting can be installed with Chemrex® CX-941, a polyurethane based adhesive.
<u>Temporary Installations:</u>	For transient events (e.g. movie sets), this rubber floor can be held in place with a double sided carpet tape. The carpet-tape is applied to the edges and entryways and is an excellent and assertive means to hold the roll rubber product down.
<u>Fabric Finish:</u>	The textured fabric finished bottom surface of the runner adds extra grip in applications where adhesives are not used; the rubber runner will remain stable and have less creep and crawl when used without adhesives because of this.
<u>Modular Flooring:</u>	Due to the light-weight nature of Wide Rib Corrugated matting this rubber mat can be used in migratory applications such as catered events, construction sites, or temporary office buildings. The rolls or runners can easily be packed up and stored away for later use. Moreover, the rib toothed profile will help alleviate dirt and debris being tracked in modular applications.
<u>Custom Cuts:</u>	This runner is offered in 36 inch and 48 inch widths and can be purchased in any length in half-foot increments up to 50 continuous feet in either dimension.
<u>Cleaning:</u>	The resilient rubber surface resists common liquids. Any common commercial or household-cleaning agents can clean the runner or it can be hosed or mopped down for outdoor applications.
<u>Availability:</u>	The Wide Ribbed Corrugated runner mat is always in stock and will generally ship the same day (please allow 24-48 hours for custom cut lengths).
<u>California Prop 65:</u>	 WARNING: Cancer and Reproductive Harm - www.P65Warnings.ca.gov .
