

# Dura-Chef Interlock Commercial

Specifications  
August 2021

## Description:

Made from reclaimed rubber, this black utility mat is affordable, easy to interlock, and ideal for a wide range of applications. This 36" x 36" rubber mat has perforated holes that allow moisture and grease to pass through, making for a safe walking surface even when spills occur. Dura-Chef Interlock (Commercial) is ideal for use in workshops, garages, restaurants, and bars as its primary function is as a non-slip flooring option.

## Material

Reclaimed Rubber

## Thickness:

1/2"-inch

## Sizes:

36 inch x 36 inch

## Weight:

15 lbs.

## Available Colors:

Black

## Applications:

Aerospace, Anti-Fatigue Matting, Assembly Lines, Automotive, Bars, Bathrooms, Butcher Shops, Cashier Stations, Chefs Mat, Culinary Schools, Drain Mats Mats, Fast Food, Flower Boutiques, Food Plants , Garage Rubber Mat, Guard Stands, Heavy-Duty Rubber Padding, Ice Rinks, Kennel, Kitchen Fatigue Mats, Laundry Rooms, Locker Rooms, Marine Flooring for Boats, Manufacturing, Pet Mats, Pool Safety Surfacing , Restaurants, Rubber Industrial Mats, Shed Flooring, Shower Non-Slip Matting, Skating Rinks, Spas, Veterinary Comfort Mats, Warehouses, Washrooms, Waste Management, Workstations, Zoos.

## Interlocking Tile:

Quick and easy interlocking mechanisms allow for a fast and painless installation. Since these rubber floor tiles can be interlocked infinitely, the 3ft-by-3ft tiles can also turn into runner mats when assembled.

## Eco-Floors!

This flooring is eco-friendly because it is made from reclaimed SBR! Reclaimed rubber is generally made from discarded tires that are recycled, de-vulcanized, and molded into a new shape. This closed-loop allows for the production of less expensive materials than natural or synthetic rubber products.

## Lightweight:

In kitchens or food processing plants floor mats need to be cleaned nightly; therefore, the less heavy the matting may be, the easier the process is for the cleaning crew. This mat is only 15lbs. and can be moved and cleaned by almost anyone. The lower weight also helps businesses reduce possible safety and liability concerns due to back-injuries.

## Cleaning:

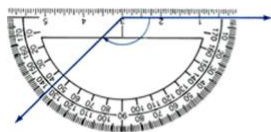

This rubber floor mat can be cleaned with most common household or commercial cleaners. Strong, highly caustic cleaning solutions (e.g. bleach) will reduce the life of the product considerably and should be avoided.

## Availability:

Generally in stock in large quantities, this mat can ship within 24 hours of most orders.

## California Prop 65:
