

# Dura-Scraper Drainage

Specifications  
August 2021

<u>Description:</u>	Durable and affordable drainage mat designed for outdoor use or any other application where water and other liquids will be present.
<u>Materials:</u>	Reclaimed Rubber with Natural Rubber
<u>Thickness:</u>	3/8"
<u>Available Sizes:</u>	24-inch x 36-inch
<u>Weight:</u>	9 lbs.
<u>Available Colors:</u>	Black
<u>Applications:</u>	Anti-Fatigue, Automotive, Bar Runners, Bathrooms, Car Washes, Catering, Comfort Flooring, Commercial Kitchens, Entryways, Dining, Drainage Flooring, Durable Flooring, Factory Flooring, Fast Food, Food Preparation, Guard Stands, Industrial Work-Stations, Kitchen Matting, Locker Rooms, Manufacturing, Non-Slip Matting, Restaurants, Safety Flooring, Service Flooring, Shower Rooms, Slip Resistance, Spas, Traction Surfacing, Warehouse, Work Stations.
<u>Why Buy Carpet Mats?</u>	These drainage mats are by far more affordable, easier to clean, and more durable than standard carpet mats. They are also more eco-friendly than PVC-backed or vinyl mats, which are not made from eco-conscious materials. Why buy other mats that more expensive and do not last as long?
<u>Comfort and Traction:</u>	Because of their thickness and resilience, these doorway drainage mats offer enhanced comfort to those who stand or work upon them. They will conform to body weight and serve as protective padding between subfloors.
<u>Drainage:</u>	The uniquely shaped drainage holes offer enhanced drainage capabilities. Have no fears as water and other liquids are trapped underneath these mats and collected on subfloor surfaces, preventing slip and fall accidents for workers and clients alike.
<u>Affordability:</u>	Considering their many beneficial qualities, there isn't a more-affordable option for commercial kitchen or doorways! Because of their long-lasting nature, they are an extremely wise investment for any home or business owner.
<u>Eco-Friendly Mats:</u>	Eco-friendly literally means earth-friendly or not harmful to the environment. This term most commonly refers to products that contribute to green living or practices that help conserve resources like water and energy. Eco-friendly products also prevent contributions to air, water and land pollution. You can engage in eco-friendly habits or practices by being more conscious of how you use resources. This rubber mat is made from reclaimed rubbers and natural rubber from the Para tree.
<u>California Prop 65:</u>	 <b>WARNING:</b> Cancer and Reproductive Harm - <a href="http://www.P65Warnings.ca.gov">www.P65Warnings.ca.gov</a> .
