<u>Description:</u>	The Horse Stall Mat is specifically made for animal stall floors and is available in two thicknesses, 1/2" and 3/4". This product is designed to cushion and comfort horses, cows, and other livestock from cold and hard grounds. In some cases, it can also serve to protect floors from possible abuse from large and heavy creatures. When purchased in bulk, pound for pound, this product is one of the least expensive rubber mats in the market. NR (Natural Rubber) and Reclaimed Rubber

<u>Drainage:</u>	Broad bottom surface grooves permit the drainage of a light volume of liquids. The movement of water and other liquids is imperative in maintaining a clean and safe environment for animals.
<u>Installation:</u>	Due to the nature of the use mats, permanent installations are not recommended. Each mat weighs 100lbs, therefore its own weight is generally enough to keep itself in place.
<u>Comfort:</u>	A cushioned floor is precisely what is expected of any stall mat, however, solid rubber mats that do not have air-pockets on the sub-surface fail to provide any sort of bounce-back or cushion. This is where our Horse-Stall mat sets itself apart. The drainage channels also serve to add to the cushion that rubber naturally offers.
<u>Cleaning:</u>	The resilient rubber surface resists common liquids and the runner can be cleaned by any common commercial or household cleaning agents. This tough and sturdy mat can also be hosed or mopped in outdoor applications. Moisture does not have an effect on this rubber floor mat so it can be cleaned using water and mild detergent without concern.
<u>Availability:</u>	Horse Stall Mats are in stock and will generally ship within 24 hours.
