

Shark Tooth Mats

Specifications
August 2023

<u>Description::</u>	Shark Tooth is a heavy duty rubber mat for floors that need protection or buffering. It is designed as a floor armor mat for use in industrial, pet-care, and fitness applications. This rubber mat can protect floors from damage usually caused by the impact from dropping barbells, industrial equipment, or to protect the equipment from an inhospitable concrete floor. The rubber mats have cushioning features that protect parts and sub-floors from dings, scuffs, and other damage. The 3/4 inch thick rubber provides superior wear life compared to thinner or other lighter-duty matting.
<u>Material:</u>	83% Post-Consumer Recycled Rubber Content
<u>Size:</u>	4ft x 6ft 3ft x 4ft 2ft x 3ft
<u>Thickness:</u>	3/4 inch
<u>Color:</u>	Black
<u>Weight:</u>	4.0lbs/Sqr ft
<u>Surface:</u>	Flat on one side, Mesh texture (anti-skid) on the reverse.
<u>Hardness:</u>	60 Shore A Nominal
<u>Applications:</u>	Anti-Fatigue, Assembly Lines, Cardio Decks, Dog Kennel Mats, Floor Protection, Garages, Golf Course, Heavy Duty Outdoor Application, Heavy-Duty Rubber Mat, Ground Protection Mat, Ice Rinks, Industrial Rubber Flooring, Laundry Rooms, Locker Rooms, Livestock Trailer Flooring, Pet Care, Pothole Reduction, Protection, Ski Lodges, Spike Protection, Storage, Thick Treadmill Mat, Warehouses, Weight Rooms.
<u>Resilience:</u>	Anti-Fatigue qualities found naturally in rubber are further enhanced by a space age polymer binder used during manufacturing. Each mat is fabricated from thousands of rubber granules and offers superior underfoot comfort and resilience.
<u>Installation:</u>	Shark Tooth is a mat and is recommended for installation in spots rather than as an all-over flooring product. Permanent installation of this product is not necessary or recommended, since the weight of the mat (100 lbs. in a 4ft x 6ft) is usually more than sufficient to keep itself in place. This way the product remains portable and may be moved or rearranged whenever necessary or desired.
<u>Indoor / Outdoor:</u>	The high content of EPDM, a UV stable elastomer, in Shark Tooth makes this product idea for indoor and outdoor applications.
<u>Cleaning:</u>	This mat can be cleaned using any everyday household cleansers or cleaning implements. Indoor cleaning involves a broom, damp mop, or a vacuum. For outdoor applications, a water hose, leaf blower or broom is sufficient. If desired, a mild detergent can be used to sanitize the surface.
<u>Recycled Tire:</u>	Shark Tooth is a "Green" rubber mat as it is made from recycled tires. This helps to reduce the stockpiles of waste tires mounting in our domestic dump sites.
<u>Availability:</u>	Shark Tooth is always in stock and will generally ship within 24 hours.
<u>California Prop 65:</u>	 WARNING: Cancer and Reproductive Harm - www.P65Warnings.ca.gov .
