

“New Amsterdam” Non-Slip Treads

Specifications
August 2021

Description:

Featuring a classical European design, the “New Amsterdam” mats will bring an Old World charm to your home. Possessing excellent protective qualities and made using rubber recycled from old tires, this mat is cost-effective, durable, and sustainable over the long term. Buy this to bring the perfect mix of aesthetic style and rugged functionality to your home today!

Material

Natural and reclaimed rubber products

Sizes:

9.75" x 29.75", 2 lbs. per mat

Thickness:

3/16"-inch

Available Colors:

Black

Applications:

Flooring Protection, Indoor and Outdoor Stairs, Non-Slip Matting.

Cleaning:

These non-slip treads are very easy to maintain. For the best cleaning results, wipe the mat with a cloth or towel, or you can rinse it with water.

Installation:

This is the perfect DIY product. You can simply place it down wherever you need it to be. If you want to make sure that it really stays in place, then simply attach double-sided adhesive tape underneath it.

Traction Mat:

The rubber material that makes up these treads is inherently slip resistant. Having an anti-slip protective mat around your household will help keep yourself and others safe because the chances of slipping and falling will be greatly reduced. Don't risk a terrible ordeal; get some protection with these non-slip rubber step mats.

Adds Safety:

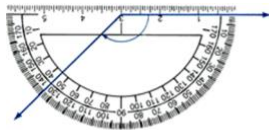

Rubber, both natural and reclaimed, is also good at resisting the effects of moisture. Mold and mildew will have a very hard time trying to make a dent in these tough treads. You also do not have to worry about excess water getting trapped in this mat because the gaps in between the elegant design lines are meant to drain away all the mud and water that come into contact with the mat.

Availability:

In Stock.
